HANDCLEANER

ROCKET HEAVY DUTY HAND CLEANER

ROCKET heavy duty gel-type waterless is used extensively for removing grease, oil, graphite, rope dressing, paint and other soils from the hands.

ROCKET does not contain free ammonia, free caustic soda, halogenated hydrocarbon solvents, or hard abrasives.

EFFECTIVE CLEANING

Due to the blend of surfactants and the inclusion of a unique specially selected fine woodflour the mild scrubbing action speeds up the cleaning process ensuring cleaner, healthier skin and making final rinsing or wiping more efficient.

VERSATILE

ROCKET can be easily spread on the hands and wiped off using a cloth or paper towel. **ROCKET** may be rinsed off with water, without leaving a sticky or undesirable residue on the skin. **ROCKET** is effective against soil such as grease, oil, ink, bitumen etc.

SAFE

ROCKET contains mild surfactants and **Coconut Oil** which ensures proper skincare. It has no unpleasant odours.

DIRECTIONS FOR USE

1. Using a small quantity of **ROCKET**, work the cleaner over the hands to loosen and dissolve soil.
 2. Remove soil by wiping with absorbent paper.
- or**
3. Add water and continue the cleaning process.
 4. Finally rinse clean with running water and dry hands thoroughly.

PHYSICAL DATA
