

**WC 2000  
TOILET BOWL  
CLEANER**

**WC 2000 TOILET BOWL CLEANER**

**WC 2000** is an acid based, honey coloured, water thin liquid, specially formulated to clean and sterilize toilet bowls and urinals.

The product's acid foundation, together with the specially blended quick acting ingredients, enables **WC 2000** to rapidly cut through unsightly blemishes.

**Proven one-step cleaning** action penetrates soap scum, mildew stains, hard water deposits and uric acid coatings easily, without undue need for scrubbing.

**Versatile**

**WC 2000** is a mild acid formula and will not harm acid resisting surfaces such as porcelain, vitreous china, fibreglass, etc.

**Directions for Use**

**WC 2000** should be used as supplied. Apply by means of a squeeze-bottle or brush, allow sufficient time for dissolving unsightly surface coatings, brush away stubborn deposits and rinse with clean running water.

**Caution**

Always wear gloves and suitable protective gear when using **WC 2000**, as it is a corrosive and irritating product when in contact with the skin or body.

**Characteristics**
